Roosevelt that "continued efforts in the fight against infantile paralysis will be maintained until final victory is won and American children are freed from the fear of this menacing disease," the people of Canyon and Randall county are lining up 100 per cent behind the March of Dimes, it was announced by Mrs. C. Relation Between Education and Religion Is Discussed

Dr. Hutson Smith of the University of Denver spoke Tuesday at the Rotary Club on the relation of education and religion. Mr. Smith has been giving a series of lectures at West Texas State this week. He was introduced by Mrs. T. V. Reeves.

Dr. Smith complimented the Southwest in that the colleges and universities are different from those in the East. In many sections the faculties are not religious; and they hold to the theory that religion has no part in education.

Dr. Smith believes that the two should work together, and have a definite place together. Education can contribute to religion in four ways:

1. Give it the questioning experience of the scientist, who takes nothing for granted.
2. Give discipline. The students' thoughts are not distorted; they deal in facts.
3. Factual aspect—reaching ethical judgment.
4. Education can deepen our religious insight. "The Heavens declare the glory of God."

Dr. Smith then outlined what religion can give to education:

1. Give a sense of significance of life.
2. Give a sense of aspiration.
3. Give a sense of oneness in searching for truth.
4. Give a sense of open-mindedness; a willingness to admit that you are wrong; humility.

Visitors were: John Patton, W. F. Harlow, Ernest Wade, all of Hereford; Arch B. Hunsley, J. E. Bowman of Amarillo; Henry J. Janssen of Eldora, Iowa; Dr. A. K. Knott, Rev. Joe Findley, Mrs. T. V. Reeves, J. L. Harden, all of Canyon.

Hillier Is Back From Visit Made Native England

"Rural England is much the same, but many of England's cities are still almost skeletons, in comparison to what they were when I last saw them," stated R. C. Hillier in an interview at the News office, after his return last Sunday, from England. He left last October 25 and has been visiting his family and friends since that time, in South England. During his stay in England, Hillier visited many historical points of interest, and numerous old cathedrals and churches including Westminster Abbey. In London he saw the "Britain Can Make It" exhibition, which portrayed many items that will soon be on the market in Britain.

"The church bells, which were silent all over England during the war, are now ringing again and it is a wonderful sound to all the people," commented Hillier.

When asked about the people of England and how they were making out since the war's end, Hillier had great praise for the Britishers. He said that their patience is truly awe inspiring, as they see no relief in sight for the strict ration of food and other items. One week's ration for each individual in England includes: 1/4 pound of Margarine, 2 ozs. of butter, 2 ozs. of bacon, 2 ozs. of cheese, 1 quart of milk, 25c worth of meat. Each person is allowed 36 points per month, but that doesn't go very far when a can of Spam takes 32 points.

These rations, of course are harder on the city dweller than the country dweller, who can grow part of his food. Nevertheless, the food problem in England is still very much the same as it was during the war.

Hillier returned on the liner Queen Mary, the world's largest liner. It was 24 hours late into New York due to the severe storm encountered on the way over. The storm lasted approximately three days, but otherwise the trip was very pleasant, Hillier reported. After docking in New York he visited points of interest there before returning to his home in Canyon.

MRS. GERALD L. SCHANTZ

On the 29th wedding anniversary of her parents, Lucille Davis, daughter of Mr. and Mrs. W. T. Davis, became the bride of Gerald L. Schantz, son of Mr. and Mrs. Gus Schantz of Lubbock.

Dr. A. D. Foreman, Jr., pastor, read the double ring service Saturday in the First Baptist Church of Amarillo. Palms and baskets of yellow jonquills flanked a white iron arch to form the setting for the ceremony. White candelabra bearing lighted tapers completed the altar appointments.

Schantz of Denton, brother of the bridegroom, sang "I Love Thee" by Grieg, "Yours Is My Heart Alone," by Lehar and "Because" by D'Hardelot. The traditional wedding marches were used for the processional and recessional and Debussy's "Clair de Lune" formed a soft musical accompaniment for the exchange of vows. For the post-nuptial prayer, Mr. Schantz sang Malotte's "The Lord's Prayer."

Attendants of the bride, Miss Phoebe Jo Baker, maid-of-honor, and Miss Vicki Martin of Lubbock, bridesmaid, wore gowns of yellow sheer styled similar to the bride's

HERE WE GO AGAIN!
A Northern soldier was amazed to find that New Orleans was a scene of exquisite beauty. "I take back everything I have said about the South. I admit now that I've been all wrong. Why it's simply beautiful down here," he told the girl in his arms.

She smiled as only southern girls can, and replied: "Why sure it is, silly. Y'all didn't think God was a Yankee now, did you?"

Churchill congratulated Stalin on the latter's 67th birthday. Never one to fall back on trite phrases, the Britisher omitted the customary "many happy returns."

**"Mixed Marriages"
Is Topic at
Baptist Church**

Dr. Roy L. Johnson will speak Sunday, January 26, at 8:00 on "Mixed Marriages—Unequal Yokes." This is the fourth in a series of messages of Marriage and Home, and the pastor proposes to reveal the secret oath that most non-Roman Catholics are required to sign before gaining permission to marry a Roman Catholic. The position of Jews regarding marriage with Gentiles will also be presented. This message has required much study and the gathering of much material, and the pastor promises positive and helpful information. A question period will give opportunity for the audience to ask questions.

The morning subject at 11:00 will be "Whose is it?" The morning congregations have been filling the large auditorium of the church, and Supt. Virgil Henson reports Sunday School continues to grow. Attendance last Sunday was 402, and the

average for January thus far is 381. Training Union which meets at 6:45 p. m. for all age groups reports an average of 161, and is under general direction of Eula Potter.

**Young Peoples Day
Presbyterian Church**

The young people will have charge of the morning service on Sunday, Charles Owens, president of the Youth Fellowship will preside and offer the invocation and benediction. Robert Jones will read the Scripture and Bruce Winn will offer the morning Prayer. Misses Sibyl Ann Gillis and Lee Mann, and Bill Davis and Carroll SoRelle will tell how Youth Shares. Misses Fay and Sue Dickerson, Chloe Ann Black and Sarah Jane Martin will lead the Litany of Dedication. The young people from the junior age through youth will sit as a group and join in the Litany of Dedication. Berkeley SoRelle and William Smith will be the ushers.

The elders of the church under the leadership of Dr. R. A. Neblett are arranging a vesper service for five o'clock. The West Texas State College A Cappella Choir, directed by Glenn Truax, will sing. Mrs. Lee Foster at the organ and Mrs. J. D. Barker at the piano will play a duet. Everyone is invited to this vesper service of music and worship. The Youth Fellowship will have a supper and discussion beginning at six.

The women of the church will meet with the Auxiliary at the home of Mrs. M. E. Cleavinger on Tuesday to hear Mrs. A. B. Haynes, Sr. Synodical Secretary for Christian Education, tell of this important phase of the Church's work. On Tuesday night Robert Orton will show pictures that he took in China to the Schooner Club at its monthly meeting.

Visitors in the home of Mrs. J. P. Doss last week-end were Mr. and Mrs. Chris Doss of Dallas. Visiting in the Doss home this week is Mrs. Doss' sister, Mrs. L. H. Roberts of Lubbock.

**WEDDING VOWS SPOKEN AT
ALBUQUERQUE SATURDAY**

Wedding vows were exchanged in a single ring ceremony Saturday evening in the Methodist parsonage in Albuquerque when Miss Vera Hamilton became the bride of Mr. Herbert Slack.

The couple was attended by Mr. and Mrs. Charles Magruder and the Rev. Carl Clements performed the ceremony.

Mrs. Slack is the youngest daughter of Mr. and Mrs. W. P. Hamilton of Tucumcari. She graduated from the local high school and took up, as her profession, beauty culture. She was employed in a local shop for some time before going to Washington, D. C. where she was a beautician in one of the most exclusive shoppes in the city for a period of four and one-half years. She returned to Tucumcari the first of 1946 and opened up her own shop—the Empress Beauty Salon—the first of March, which she still owns and operates.

The groom is the son of Mr. and Mrs. T. V. Slack of Canyon, Texas. He graduated from the Canyon high school and attended the West Texas State Teachers College in Canyon for three years. He has been employed by the Southern Pacific railroad company as brakeman since 1942 in Tucumcari.

The bride was attractively attired in a black and white pin-checked two-piece suit and her accessories were black and white. She wore the traditional good luck items, for something blue she selected a sheer blue blouse and for something bor-

Maybe the Republican majority is confident, but apparently the pastors in Washington are not. For the first time special prayers were said in capital churches for the guidance of Congress, a measure apparently not though necessary under Democratic control.

Construction in 1947 will probably exceed Commerce Department's predicted \$15 billion. Previous peak time high was \$11.5 billion in 1926.

Freshman Team Wins Tournament

Down Lion Quint In Final 64-46

West Texas State's hustling Freshman basketball team grabbed first place in the first annual Plains AAU tournament in Amarillo Friday night by plastering a strong Hedley Lion's quintet 64-46 in the finals.

Paced by flashy Sammy Malone, 1946-all-state selection from Stratford, the junior Buffaloes had to come from behind in the first half to tie the score at 24-24 at intermission, after trailing throughout the opening period.

Upon resumption of play in the second half, the speedy West Texas State cagers threw up a stranglehold defense and at the same time opened up a scoring spree which found them leading 44-35 with ten minutes remaining in the contest.

In the last period the pre-varsity stars romped almost at will over opponents and were never seriously threatened.

Sparkling the Maroon attack, besides Malone, were scampering Hubert Kitchens of Childress who sacked away 15 points, and towering Charles Barnard of White Deer who collected 14 points. Malone led the Canyon scoring with 18 markers.

W. J. Redwine, Hedley point-master, ripped the net with 18 points to parade the losers. This 18 points, together with his scoring in previous games, gave the dead-eye artist the high scoring honors of the meet with 72 points. He also zipped in 26 tallies in the semi-final match to garner single game scoring honors.

In a third place encounter, the dark-horse Thalia All-Stars conquered Frank Phillips' Men's Club in a thrilling 51-48 game. Thalia led 28-27 at halftime.

PLAINS AAU CHAMPIONS, top row, left to right, Bill Phillips, Sammy Malone, Freeman Melton, Joe Willoughby, Weldon Trice, and Manager Bert Lane.

Bottom row, left to right, Hubert Kitchens, Bill Birdwell, Ted Haber, Charles Bernard and Coach Borden Price.

Team members not shown are Charles Kitchens and Ray Moore.

Ted Haber, carrot-topped Freshman tosser, won laurels by being placed on the all-tournament team. Hubert Kitchens won a guard berth on the second-squad.

Bufs 47—Loyola 54

West Texas State fell before the onslaught of the power-laden Loyola (New Orleans) cagers Saturday night in a hard-fought 54-47 basketball game. The squad of tall Texans left Sunday for Miami, Florida where they will tangle with the Purple Hurricanes of Furman University in the initial part of a double-header Wednesday night.

Merger of the armed forces and universal training will get strong support in the new Congress, with New York's James W. Wadsworth leading the fight. Wadsworth will also press for immediate union of the House Naval and Military Committees into an Armed Forces Committee, as provided in the Reorganization Act.

Life would be practically perfect, if somebody would invent a process for taking the hard work out of it.

Mrs. Marshall Honored at Post Nuptial Shower

Mrs. Alvis Sykes, Mrs. H. C. Adcock and Mrs. J. T. Sykes were hostesses for a miscellaneous shower honoring Mrs. Charles F. Marshall (nee Dorothea Dean Stallings) on Thursday, Jan. 16.

The house was beautifully decorated with gladioli and snapdragons, while the lace covered table was centered with a miniature bride and groom on a reflector, surrounded by flowers and tall tapers in crystal candelabras.

Miss Betty Baber of Amarillo presided at the bride's book and Miss June Ratjen had charge of the contests.

The honoree's corsage consisted of gardenias and rosebuds, while each one registering was presented with a miniature corsage.

After a social hour of contests and the opening of the gifts, refreshments of open faced sandwiches, toasted nuts, olives, individual blue and white angel food cakes, mints and hot punch were served to the following.

Mrs. E. A. Michael, Mrs. R. N. Henry, Mrs. Jack McWhorter, Mrs. Ray Campbell, Mrs. H. R. Ratjen, Miss June Ratjen, Mrs. L. D. Winn, Mrs. S. L. Robinson, Mrs. Tom Gooch, Mrs. Fannie Stallings, Mrs. Fred Marshall, Mrs. Clem Dugan, Mrs. R. E. Foster, Mrs. Douglas Marshall, Mrs. Cas Jennings.

MRS. MCCORMICK HOSTESS TO ZITA H. D. CLUB

The Zita Home Demonstration Club met in the home of Mrs. B. E. McCormick on January 14. Every member was present. The president, Mrs. W. C. Angel opened the meeting by reading "My Daily Creed." There is a considerable number of people in Canyon asking for city mail delivery. While The News does not expect to patronize such delivery, if and when it is started, we are of the opinion that to the average citizen, they will be disappointed in the service. Canyon citizens are accustomed to going to the post-office two or three times per day to get their mail. Due to the schedule of train service, city delivery would mean that all afternoon mail would not be delivered until the next day. No mail would be delivered Saturday afternoon or Sunday. This would not suit those of us who like to get our mail daily. The postoffice department has called for a map of Canyon. If city delivery is authorized it will mean sidewalk building and other improvements, which will be a good thing for Canyon. All houses will have to be numbered. The post office department has recommended that a new system of naming streets be used. Since Canyon got away from the old system of naming streets after presidents, trees, animals, etc., we are not likely to go back to that old system.

Of all things—miracles will never cease! Madame Perkins announced her opposition to portal-to-portal suits which are being filed for CIO. Time was not far off when the Madame was willing to give labor anything and everything requested. Whether the Madame was under the influence of the White House, or was she speaking her own mind while she was doling out all demands of labor will never be known. We note that CIO lawyers have now concluded that their new portal-to-portal racket is not popular with the people, and are dismissing some of the hastily filed suits. Personally we hope that Congress has by this time had enough of labor racketeering that it will be willing to pass adequate restraining laws, which will not punish the laboring men, but will put a check on the labor racketeers who are taking advantage of the unjust laws which allow labor leaders to do as they please.

Coke Stevenson retired as Governor of Texas after setting a record of the longest tenure of that office. For 5½ years Coke Stevenson has served the people of Texas faithfully and well. He never got out on a limb, as most people do. By nature he is a thrifty and economical man. He carried his ideas into state affairs. As a result Texas has the largest cash balance in the history of the state. Naturally Coke is being cussed for not wasting public money when it has been the national hysteria to raid the public treasury. This session of the legislature will no doubt take care of a lot of cases of emergency, which calls for cash. We had as well ask ourselves whether or not we prefer to have cash to meet these needs, or have the state go in the red, as it used to do? Most of us are most grateful to Coke for having sat on the lid and accumulated the cash, regardless as to how it may be spent—usefully or otherwise.

We see where Ford has joined the Canyon News in trying to hold prices in line. However, Ford took a step which we did not do. He raised prices, but is now reducing them. So far as The News is concerned, we have not raised advertising and subscription prices. We are of the opinion that the people of Randall county are thankful for this continued service at reasonable prices. While the cost of everything connected with a newspaper has advanced during the war, we have held the line, hopeful for a better day. Ford raised his prices, but now is lowering them. We hope that Ford represents a trend among manufacturing concerns. The News is pleased that we have the same ideas about business that Ford advocates.

We have been asking retail merchants of Canyon if they can see a trend in merchandise. The answer is uniform. There are some radical declines in merchandise; some moderate declines; and a number of increases. This applies to all lines of merchandise. Foods show the greatest variance of any line. So far no trend has been established, and cannot be established until the labor situation is ironed out. Where manufacturing enters as a cost, prices cannot decline until such a time as Congress sets its foot down on the continued strikes and demands for increased pay so that the labor may collect more dues, to use to their own benefit.

It seems that the Republicans have their eyes opened. Before taking over Congress Republicans boasted as to what they were going to do to taxes. It is now plain that all special taxes and luxury taxes will remain. If you drink liquor, you are going to continue paying the high tax on booze; or if you buy a fur coat, or leather goods, or any of the other luxuries, you will continue paying wartime taxes. This is right. We still owe about \$1830 per capita debt in this nation—thanks to war time waste and extravagance—and the sooner it is paid off, the better. Income taxes may be reduced, but not a great amount.

America is trying to sell foreign nations on the Democratic idea. For them we insist upon honest elections and honest public officials. We wonder, just what effect the Pappy O'Daniels, the Bilbos, and the Talmages have had on the minds of Europeans who are groping their way on the question of Democracy? And what about all the graft and greed in connection with the war when young men were dying for this thing we call Democracy? Everything bad in America hinders Democracy throughout the rest of the world.

SUBSIDIZED TRANSPORTATION

There has been an increasing amount of comment in the newspapers of the country on the cost of building and maintaining airports and their related facilities. The rapid growth of commercial air transportation has made a great many airports and terminals obsolete—and as a result, communities find themselves faced with the prospect of investing enormous sums in tax dollars in new construction.

Much of the newspaper comment has contrasted the airlines with the railroads. If a railroad, for instance, had the temerity to request a town to build it a station, using the money provided by all the taxpayers, it would be laughed out of existence. But that is precisely what communities do for the airline in the case of airports, administration buildings and terminals.

The Tucson Star made a typical comment when it said, "Surely the time has come when, just as railroads were compelled to stand on their own feet, so should the aviation industry." The Newark Sunday Call said: "As to new airports, it should be seriously considered whether the public has not gone as far as it should go in providing capital for construction and shouldering losses on operation." And the Commercial West, of Minneapolis, observed: "All transportation systems operate for profit, and we can see no reason why any one system should be benefited by subsidies or special treatment."

The financial problem involved in this is a very real one, and it will grow as time wears on and more and larger planes overcrowd our airports. Every owner of taxable property is directly affected. There must be some equitable means of allocating the costs of airports and terminals between commercial and non-commercial users that will spare the taxpayer part of the heavy burden.

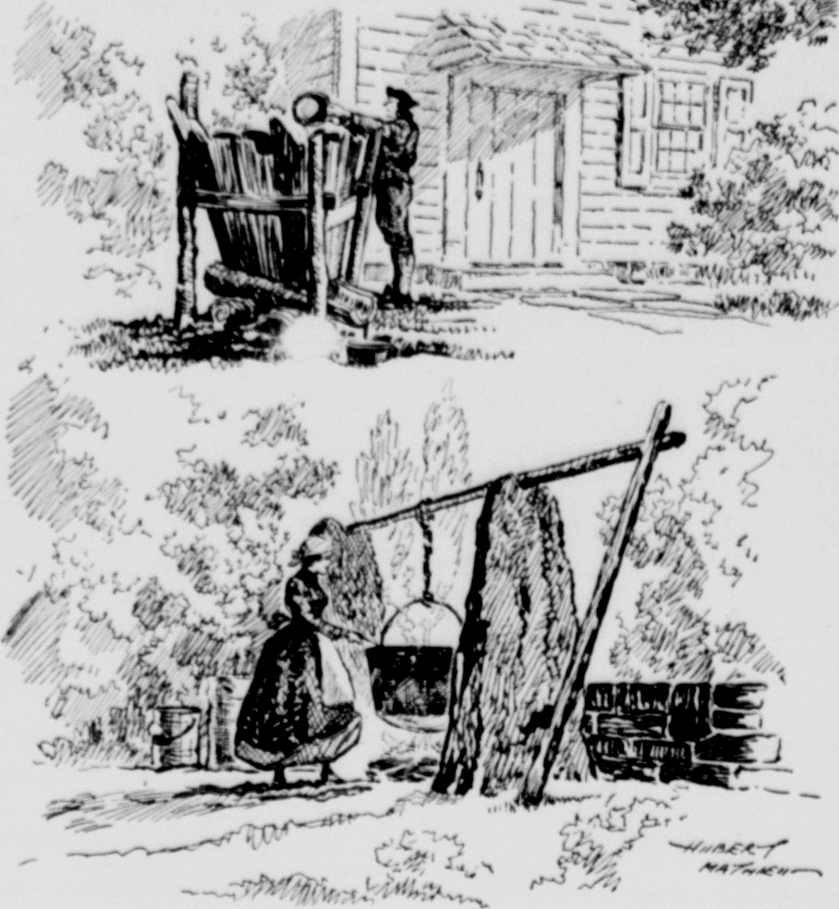

Coke Stevenson stated that he was retiring to his ranch to look after fences. His friends hope that he included political fences. Pappy is up for re-election in 1948.

OUR DEMOCRACY—by Mat

MARK OF THRIFT

IN THE COLONIAL DAYS OF OUR COUNTRY, THE WELL STOCKED "LEACHING BARREL," THE SUPPLY OF FATS FOR SOAP IN THE LARDER WERE MARKS OF A THRIFTY HOUSEHOLD—A HOUSEHOLD THAT SAVED FOR FUTURE USE MATERIALS THAT WOULD OTHERWISE BE WASTED.

THE MEANING OF THRIFT DEPENDS UPON THE TIME AND THE CIRCUMSTANCES.
TODAY'S MARK OF THRIFT IS HOW WISELY WE USE OUR MONEY AND WHAT WE PUT BY FOR THE FUTURE—IN U.S. SAVINGS BONDS, LIFE INSURANCE AND SAVINGS ACCOUNTS.

CASE AGAINST NATIONAL BARGAINING

In the opinion of many authorities, one step necessary to the fair solution of the strike problem must be the elimination of national bargaining.

Under national bargaining, one union signs agreements with all or practically all of the concerns producing a given commodity. If that union then strikes, production of the commodity ceases in its entirety. Coal is a good example. The contract signed between the United Mine Workers and the government last May covered the vast majority of the nation's soft coal mines. The strike was called—and the entire nation was imperiled at a time when uninterrupted coal production was essential not only to industrial activity but to the public health.

National bargaining, in effect, gives unions monopoly power over industry—precisely the same kind of monopoly power that was outlawed in management by the anti-trust statutes. And it presents exactly the same danger to the public interest.

One student of the problem put it this way: "Competition and free enterprise should be restored, and they can be restored only by limiting the size and scope of bargaining agreements, whether in coal, steel, automobiles, tires, or anything else." There is no question here of imperiling the rights of labor—they can be completely protected by agreements between the employers and employees in individual companies. The sole question is to protect the American people against a principle of bargaining which has resulted in giving special groups dictatorial control over the production of a long list of essential goods. That is an obvious duty of the present Congress.

Members of the legislature are taking the demand of the people seriously in the case of redistricting. That is, a portion of the legislators are, while those from East Texas

they are powerful nations. They talk of "security"—which simply means a license to push other people around. They prate of their own brand of "democracy"—which in all essentials is no different from nazism. They shout for the rights of workers—and they treat the worker as a tool, to be used and discarded as the whims and exigencies of the moment may determine.

Super-states inevitably become slave states. All-powerful government inevitably turns into oppressive government. If the American people have learned nothing else, modern history should have taught them that grim fact. The threat to liberty from within is greater, more ominous, than the threat from without. The greatest truth of this age is that those who temporize with freedom by sanctioning centralized, socialistic government, lose freedom.

Just as a political revolt corrects governmental extremes in reform legislation, so does an economic revolt—depression and price and wage collapse—seek to restore economic balance. It is, however, a costly and dangerous method. The remedy is not to be found in writing more laws but in correcting old laws. It is to be found also in honest and fair administration of the laws.

Bouquets of snapdragons were placed throughout the entertaining rooms.

THE REAL MEANING OF "FIREPROOF"

The National Board of Fire Underwriters, through General Manager W. E. Mallalieu, recently stated that it is concerned with the reaction of the public to the term "fireproof" as applied to hotels. "Fireproof construction," Mr. Mallalieu continued, as used by the fire insurance industry, is designed to indicate a type of construction in which the contents of the building can be completely destroyed—and at the same time leave the framework of the building, including the interior, capable of rehabilitation and continued use.

As a result, the word "fireproof," as applied to a hotel, should never be used, regardless of the type of exterior construction, unless all vertical openings, such as stairs, elevators and shafts are closed with partitions and equipped with fire doors. This is the only way to prevent the swift upward travel of fire from one floor to another—which was the primary cause of death and injury in both the LaSalle Hotel and Winecoff Hotel disasters.

Also, Mr. Mallalieu added, in a building properly designated as "fireproof," there must be no transoms, and the separating partition and doorways between rooms and corridors must be of such type as to prevent the ready spread of fire from one room to the other. The air-conditioning system must be of a design which will not permit heated, poisonous gases to travel into rooms.

The enforcement of proper "fireproof" standards is a function of municipalities. Where building codes are inadequate and obsolete, as they are in hundreds of towns and cities, the protection of the public demands their immediate modernization—followed by vigorous enforcement.

Bill Davis Publishes The Eagle's Tale

Haines, Brant To Assist in Work

Gooch Piloted Publication During First Semester

This is old Cal reporting to you once again straight off the wires of the Canyon High Press with all the gossip incorporated.

Like brother like sister I always say. Anyway whether it makes sense or not Joanna Haines was seen with Joe Abbott at the local theater Thursday night. (See what I mean.) Tell me though Jo, where does Chloe Ann Black fit in to the picture?

Bruce Winn and Albert Craig seem to enjoy Sunday afternoon rides especially with the Dickerson twins. What about that kids?

Don't tell anybody but I heard that Joan Bullard is just CRAZY about cars with blue fenders.

Well at last something has become of this Laverne Hinders-Guy Brant case. He was seen escorting her to the show Thursday night after the junior party.

Other couples at the party were Martha Wilson and "Rusty" Davis, Billie Bonds and Dick Barrett, and Geneva McDougal and Max Bellah.

Paige Carruth why can't you make up your mind about the Aven sisters Martha Jean and Juanita?

News of the Week: Harold J. Prichard is going steady with Shirley Harrison, an ex of Canyon High.

Just a bit of news I heard the other day—Sue Jennings and Ridings Sloan seem to be enjoying themselves at a movie.

Boy, that Dorothy Butler sure gets gets around. I saw her with that handsome Jimmie Knott from WT one day last week.

I am mystified as to who "Snook-ey" is. Anyway he must be somebody pretty wonderful because Odessa Scruggs is always saying "my Snook-ey did this" or "my Snook-ey did that." Does anybody know?

Bobby Jean Ford, who was that tall stranger you were with several Saturday nights ago. It couldn't have been Jack Ratjen from Happy (could it?)

These freshmen kids really believe in long dates, but what I want to know is do they really happen. Just ask Donna Erwin.

Now here's a mix-up! Frances Standley went with Clifford Burtz after the junior party. Then the very next Saturday night Frances went with Malcolm Gunter and Clifford with Geraldine Small. (It was a double date by the way.)

By the way, Mary Ann Parker is back in circulation (at least she will be if M. E. Rhodes and Ridings Sloan have anything to say about it.)

FFA organization had a meeting last Friday morning in the ag. room.

James Bible and James Inman were selected as candidates for the Chapter Farmer Degree and they are to receive the silver pin of the chapter.

The boys decided to enter the National Chapter Contest and it is based on program work. The winners are elected on bases of score card which includes points given for supervised practice, co-operation, thrift, community service, recreation, conduct of meetings, leadership and scholarship.

They will also take part in the District Contest February 5, at Farwell, Texas. First year class will make up the conducting teams and the second year class will put on farm demonstration. Banners will be awarded for first and second place teams, also an all district chapter will be selected on the basis of their performance.

Faculty Will Pick Girl or Try-out

Senior class meeting was called Friday, January 17, 1947, to select girls to go on a pilgrimage to Washington, D. C., sponsored by the Daughters of the American Revolution.

The girls elected from the class were Geraldine Small, Betty Ann Miller, and Gracie Boyd. One girl will be selected from these three by the faculty of Canyon High School and her name will be sent to Dallas.

Other Texas high schools will do the same. One name from each school will be put into a box, then one will be drawn out, and this girl's name will be put in a national box. Three girls' names will be drawn and these will get the free trip to Washington.

Announcements were also made that the senior pins will cost more than first thought. One dollar and twenty cents will have to be added to the previous price. Seniors that have not ordered rings should do so at once since deliveries of jewelry are still slow.

Midnight Oil Helps Test Crammers

Yo-ho! Wonder how many of us will live through these mid-term tests this week.

Midnight oil,—that's what we're going to have to burn. "How I wish I'd studied harder," are the walls heard on all sides.

"Kid, what do you think you're going to do in Geometry? Suppose that English test will be a brain teaser?"

Schedule change for the students will be made in the Superintendent's office during Monday and Tuesday of next week.

Examinations will be one and one-half hours in length. Students must remain in the examination room at least one hour before being excused. Students are not required to be in school Wednesday or Thursday except when they have an examination. The library will be open for those students, who wish to study and students must not linger in the halls during the regular examination periods. Buses will not run Friday, January 24.

Highlanders Present Musical Program

Presenting an assembly program of native music last Monday, were the Kilties, whose director, Mr. William Kimmo, came originally from Scotland. The singers were dressed in full Scottish costumes. Mr. Kimmo explained the significance of each part of the wearing apparel. He also told stories that gave rise to the writing of many of the Scottish songs, and he personally played the bagpipes and marched down the aisles of the auditorium in order that the students might have first hand knowledge of the step of the rhythm employed.

The quartet sang "Do Ye Know John Peel" and "The Song of the Western Men." Solos sung were: "The Swing of the Kilt," "Loch Lomond," "The Road to Mondalay," and "When Irish Eyes Are Smiling."

The closing song was "My Lassie." Mr. Wooten announced: that the football boys were invited to see a twenty minute short of the most famous football games of the previous year at the Olympic Theater, last Tuesday afternoon with Mr. Charles Donnell and Coach Wheelock as hosts.

Pupils Complete Home Projects

In completion of a semester's study in various phases of Home Economics, approximately fifty-five students completed home projects and submitted written reports of their activities Friday, January 17.

"Home projects are an outgrowth of class study and are designed primarily for the purpose of giving the girl an opportunity to put into practice information gained in the classroom and to further her knowledge and interest through actual home experience," said Miss Kathryn Davies, instructor of home economics.

Projects completed this semester included: Personal Improvement, in which each girl made an intensive study of personality, grooming and manners from an individual standpoint; Expense Accounts, both personal and family accounts, during which the student planned a tentative budget and kept an accurate record of all income and expenses during the fiscal period; Meal Planning and Preparation, in which the individual planned menus and prepared meals for her family; Hospitality, in which the student entertained guests in her home; and Family Relationships which pertained to child care and the girl's relationship for her parents and other members of her family.

"Successful home projects are essential to the advancement of the student's knowledge and education in the field of homemaking. They can be made quite painless, even enjoyable, and most profitable experience if there is mutual co-operation among parents and daughters," states Miss Davies.

"Rusty" Davis underwent an operation Sunday morning in Neblett Hospital. His condition is reported satisfactory.

Rep. John W. Gwynne (R-Iowa) will re-introduce his bill in the 80th Congress to make unions file portal-to-portal suits within one year after the cause of action.

Let's Study — Meet Final Tests. Does your report card have that guilty look? Do you want to know a simple solution? Then try Study. Spelled S-T-U-D-Y. Use a little Study every day for six weeks and if you are not completely satisfied, well—

But seriously, since the semester is over and you're ready to begin another lap around the scholastic field, we should look at the reports from the previous period and see if we cannot set a new record in the field of study.

Studying at home is not the only thing necessary, but many of us should be able to use their study halls more effectively.

So since you will have to go to class until you have finished grade school and have sixteen high school credits, why not make the most of each semester. Then you will have plenty of time for the duties seeming necessary.

Pictures Shown Classes Are Friday Afternoon Feature

Two pictures, "String Choir" and "Volcano Eruptions," were shown the last period Friday. The first, "String Choir," showed the instruments in action and how an orchestra works.

"Volcano Eruptions" gave the innermost parts of a volcano eruption from the beginning till the actual eruption. It also showed the inside of a volcano that erupted in 1894 in the Sunda Islands. This eruption was heard around the world four times.

Mrs. B. F. Bartlett, study hall teacher, was absent from her duties last Thursday, January 16. Mrs. J. W. Kleinschmidt, former librarian, substituted for her.

Second Team runs Over Bullpups 30-19 for Win

Canyon whipped the best, that Claude could muster, last Friday night, January 17, when both the boys and girls defeated the Claude teams.

The boys came out on top by a score of 36-39. During the first half, the Canyon quintet pulled away to win by a seven point lead. Billy Abbott and Charles Wright sparked the win with ten points each.

Forester High-point

A substitute forward, Janey Forester, led the Eaglettes to the seventh win of the season in thirteen games, when the Claude girls were defeated by a lopsided score of 45-12. She had fourteen points to her credit, followed by Martha Jean Aven and Dorothy Butler with ten points each. All the girls on the squad played. A novel note was added when the three first string forwards were put in as substitute guards.

Play Plainview

Saturday night, January 25, the Eagles went to Plainview to play the Bulldogs. The Canyon "B" team ran over the Bulldog "B" team by a score of 30-19. Jerre Inman took high point honors with seven points, followed closely by James Guthrie and Lee Bailey with six points each. The first team just couldn't get started and lost 41-34. Abbott hit six field goals and three free throws to be high scorer with fifteen points.

The boys' first string have played seventeen games to this date. They have won eleven and lost six making a percentage of .646. The boys' second team have played nine games. They have won seven and lost two making a percentage of .777. The girls have played thirteen games winning seven and losing six. Their percentage is .539.

Friday and Saturday nights the Eagles venture to Hereford and Dimmitt, respectively.

Next Monday night Tulla teams come to Canyon to play the Eagles. Profit made at this game will be donated to the March of Dimes Drive," states Mr. E. A. Wooten.

READING VALUES SUGGEST AT WEST SIDE CLUB

"Reading" was the subject for discussion when the West Side Home Demonstration Club met with Mrs. J. W. Bourn, Jan. 15th.

The ability to read is generally accepted as the most important skill a person can have. It is the means for obtaining ideas that cannot be obtained orally. In so far as schooling is concerned reading is the most important study because knowledge in text books is useless if the pupil cannot read understandingly, said Mrs. W. C. Roberts on her subject, "Why is Reading such an important School Subject?"

"Reading constitutes about 80% of the study of elementary school pupils and 75% of the study of high school pupils, and reading is not a subject that the pupil lays aside when he leaves school," continued Mrs. Roberts.

"What are the most ordinary causes for reading difficulties and how can they be overcome?" was discussed by Mrs. Lyle Bonner.

"If your child is slow in learning to read," said Mrs. Bonner, "don't scold and don't feel embarrassed. Find out the cause. Talk to his teacher. Check on your own attitudes, your own reading skill. If you are deficient, admit it and learn along with your child. Ignorance in itself is no disgrace but to make no effort to overcome that ignorance is unpardonable."

The third part of the program was discussed by Mrs. B. A. Burrus. "I am a slow reader, how can I improve my reading?"

"Samuel T. Coleridge divided readers into four classes: sponges, who absorb all they read and return it nearly in the same state only a little dirtier; sand-glasses, who retain nothing and are content to get through a book for the sake of getting through the time; strain bags, who retain merely the dregs of what they read; mogul diamonds, equally rare and valuable, who profit by what they read and enable others to profit by it also."

Mrs. C. E. Head resigned as president and Mrs. Lewis Tueck was elected to take her place.

Cheese Ritz, olives, cake and hot chocolate was served to twenty members and guests.

The next meeting will be an all day meeting with Mrs. E. W. Bourn, Feb. 5.

Tuberculosis Is on Rise All Over World

Devastated Areas of Europe
And Asia Hit Hardest.

COLUMBUS, OHIO.—In this country tuberculosis is at its lowest ebb in history, but it is on the upgrade in nearly every other part of the world, Frederick Hopkins, executive secretary of the National Tuberculosis association, reports.

Since the outbreak of the war especially, he said, tuberculosis has soared in the devastated areas of Asia and Europe.

In Yugoslavia, for instance, with a population of less than a tenth of ours, the death rate from tuberculosis is as high as here and going higher.

Approximately 500,000 persons in the United States have tuberculosis, Hopkins revealed. About 55,000 die annually as a result of it.

The difficulty in treating the disease effectively is that although a case may be cured, unless the patient carries on a life of good food, proper rest, light work and healthy living, it will inevitably recur.

Hopkins pointed out that of all the patients discharged from tuberculosis sanatoria each year fully 50 per cent either re-enter the hospitals or die within five years.

This is not the fault of the doctors who treat the patient, Hopkins explained, but the result of improper care by the patient himself after his release from supervision.

In spite of years of research, tuberculosis still is not fully understood, Hopkins admitted. He referred to statistics compiled by experts on the disease.

Forty years ago tuberculosis struck principally at young people. Latest records, however, show that among men the ages of 50 through 60 are the periods of greatest danger.

In women, tuberculosis strikes more frequently than in men.

Buying Plans Show Cars Most in Demand

WASHINGTON.—Here are the major ways in which Americans planned to use their savings and income:

1. Some 5,000,000 wanted cars this year. Two out of five had less than \$500 savings, and yet only one out of five would settle for a used car. The great majority (62 per cent) wanted to pay from \$1,000 to \$1,350.

2. Some 9,900,000 definitely planned to buy refrigerators, furniture, radios, washing machines.

3. Some 3,100,000 wanted homes.

These figures come from a study just made available by the bureau of agricultural economics for the federal reserve board, which has to worry about the channels American money is taking.

A definite "let tomorrow take care of itself" philosophy was found; only one out of five people questioned thought this year (1946) was a good year in which to buy.

Britons Sell Family Art To Bolster Bank Accounts

LONDON.—Pirates of two centuries ago may have been daring and gallant, but the loot they carried across the seven seas was only chicken feed compared to great fortunes in rare paintings, old books, antique furniture and other objects d'art now legally being taken from one continent to another.

In the wake of World War II many royal Britons are parting with family heirlooms to bolster their dwindling bank accounts, and the war-profit rich are taking advantage of this to guard against inflation by putting their money into these priceless pieces of art.

According to board of trade statistics, curios shipped to the United States alone reached the \$3,000,000 mark the first six months of this year, while paintings bought by American collectors totaled twice that much. Even student copies of the great masters sometimes reach \$2,000.

Two of the principal art auction houses here, Christie's and Sotheby's, are reputedly doing the biggest business in their history, with the usual 10 per cent of their daily two-hour auctions hitting the \$55,000 figure.

Cops Sent Tuna Fishing, It's Already in Cans

CHICAGO.—Chicago detectives got a dream assignment when they were ordered to go tuna fishing. The catch was that the tuna is canned.

The detectives were assigned to locate 560 cases of tuna stolen in Boston. Police there asked Chicago authorities to keep a lookout for any that might show up in local restaurants or grocery stores.

Deer Meat Is to Eat, Not To Exhibit, Officials Say

SAN FRANCISCO.—The deer hunter who rides home with his buck strapped to the automobile hood or fender is a foolhardy show-off in the opinion of California fish and game officials.

They estimate that in California at least one-fourth of all deer meat taken spoils, and exposing the venison to heat is one principal cause. Deer should be skinned in camp and wrapped in blankets, officials say.

Extremists in the Philippines may be glad to give up bases when their home-plate is threatened.

MADE IN THE SOUTHWEST - FOR THE SOUTHWEST!

By H. BAILEY CARROLL

Director of the Texas State Historical Association; Vice-President of the American Association for State and Local History

Josiah Gregg, the most celebrated of all the Santa Fe traders, opened the Fort Smith-Santa Fe Trail in the spring of 1839. The intrepid Gregg chose to abandon the regular route from Missouri in favor of one from the head of navigation on the Arkansas, for on the more southern route "the pasturage springs up nearly a month earlier." Keeping on the ridge just north of the main Canadian River, Gregg, with fourteen heavily laden wagons, established a new east-west commercial arterial, "middle-busting" both the present state of Oklahoma and the Texas Panhandle, headed straight through Comancheria for the marts of Santa Fe.

In 1845 Lieutenant James William Abert, of the United States Army Topographical Engineers, entered Mexican territory unannounced and ran the trail in reverse—from west to east. Abert surveyed the Canadian, mapped the country, and explored in the Panhandle, where he visited the Kiowa.

In 1849 Captain Randolph B. Marcy escorted a large group of California-bound Forty-niners along the trail from Fort Smith to Santa Fe. Thus did Gregg's commercial trail across an unbroken succession of fertile glades and grassy plains become Abert's and Marcy's military road and, in turn, an emigrant trail with caravans of prospectors and homeseekers.

No pioneer trail was ever as fixed and definite as a modern paved highway, but this trail was a sort of guiding star in that it pointed the way for the survey in the fifties of a possible transcontinental railroad route along the thirty-fifth parallel to the Pacific. Later the Rock Island and the Frisco lines actually utilized portions of the trail for roadbeds.

In the twentieth century the homeseekers who followed Gregg "where the grass was green" built modern highways over many of the ruts in his trail; in fact the Fort Smith-Santa Fe Trail was a worthy pioneer forebear of present-day Highway 66.
